

Mind Readers.

m do

mcgowan, donnelly & oberheu, LLC

Our ability to anticipate the needs of insureds and underwriters will make you think we are mind readers. It's time to think differently about Professional Liability. Let us demonstrate the MDO difference:

- We **recognize** professional and management liability products are not commodities.
- We work to **understand** the needs of the insured before submitting to market.
- Our **dedication** to professional liability enables us to **analyze** exposures and provide **solutions** often overlooked by other brokers.
- We seek creative and **innovative** ways to write business, and we **excel** at offering solutions to unusual problems.
